

**A LEADING SUPPLIER OF
ELECTRICAL AND MECHANICAL
PRODUCTS**

EnergiXcel
Trading Company

A Subsidiary of Gulf Lights Electrical Engineering W.L.L

Mission

The company with its well known products and a team of professionals aims to become one of the fastest growing companies in the field of electrical and mechanical products.

Vision

To offer clients the best of products and provide services that comply with international standards.

The company has achieved great milestones and supported major building and infrastructure projects in Qatar.

About Us

With decades of experience, The Group has made a niche for itself in the Construction Industry (MEP). By providing the finest and latest Electrical & Mechanical products, the company has established itself as one of the leading trading companies.

The professional expertise of the company personnel has ensured growth year after year on a regular basis.

The Group has achieved great milestones and supported major building and infrastructure projects in Qatar. At providing quality service has become a way of life.

Brands

Products

Electrical Products

CENTRAL BATTERY SYSTEM, FIRE ALARM SYSTEM, PUBLIC ADDRESS SYSTEM AND UPS

We have partnered with **EATON** to supply high quality Fire Alarm Systems. With our ability to provide complete systems, not just components, you can be confident in the knowledge that all products have been specifically designed and tested to ensure that they are all fully compatible to form a reliable and compliant fire detection and alarm system.

We have partnered with **EATON** to supply Public Address and Voice Alarm Systems. PAVA Systems help to protect the safety of the building occupants in an emergency by verbalizing useful information about the nature of the hazard or the safest and nearest escape route. Such communication is particularly important in large, vulnerable or complex buildings where some occupants maybe unfamiliar with emergency procedures and exit points, such as malls, hospitals, schools and offices.

ELV CABLES

We have partnered with **B3 INTERNATIONAL** to supply Extra Low Voltage Cables. The extensiveness of these cables helps the end user in wide range of applications such as Building Automation, Security, A/V, SMATV and Data transfer. These cables follow the latest international standards and have been used in various projects across Qatar.

FIRE RESISTANT CABLES & FIBRE OPTIC CABLES

We have partnered with **B3 INTERNATIONAL** for the supply of Fire Resistant Cables. These cables are widely used in fire alarm system, central battery system & emergency lighting. These cables are certified by 3rd Party Laboratories and Utility Approved and have been used in various projects across Qatar and GCC countries.

Products

Electrical Products

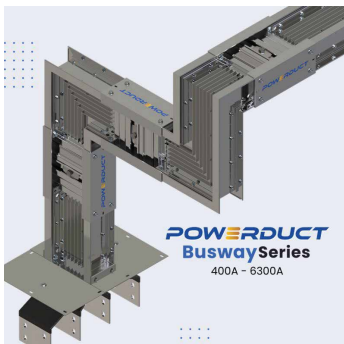

GI CONDUITS & ACCESSORIES

We have partnered with **TECHNOFLEX** to supply both GI Metal Conduits & Flexible Conduits along with the accessories. These conduits are manufactured from high grade galvanized steel. They are available in class 4 hot dipped galvanized, black enameled and class 3 pre-galvanized versions. The product range is manufactured to various international standards such as the relevant clauses of BS EN 50086/BS 4568 and BS 31. Additionally, a range of EMT conduits and fittings complying to American Standards are also available.

ELECTRICITY METERS

Supreme technologies has tied up with **LANDIS + GYR**, one of the leading global providers of integrated energy management products. Their products are tailored to Kahramaa needs and are unique in its ability to deliver true end-to-end Advanced Metering Infrastructure solutions. Today, the Company offers the broadest portfolio of products and services in the electricity metering industry and is paving the way for the next generation of the Smart Grid.

BUSDUCT SYSTEM

We have partnered with **POWERDUCT** to provide a reliable Busduct system. They are global manufacturing leaders in Busduct System due to their product quality and good services. Whether you require a busduct system for reliable quality, prime or standby application, we can meet your needs with their range of quality products. Their busduct system is developed by highly skilled engineers and technicians. We can meet all your requirements for low, medium and high voltage busduct systems ranging from 100Amp to 6300Amp.

Products

Electrical Products

LIGHTING CONTROL SYSTEM, GUEST ROOM MANAGEMENT SYSTEM (GRMS)

We have partnered with **COOPER** which is an established company specializing in low voltage control systems. They design and manufacture state-of-the-art Guest Room Management System (GRMS) and Lighting Control System. They are respected and recognized around the world with engineering capabilities to meet any market standards and custom-made products. All systems manufactured by them are compatible with most open protocols such as TCP/ IP, are easily configurable and open for integration to any third-party equipment like BMS, Fire Alarm and Property Management Systems.

DRY TYPE TRANSFORMERS, OIL TYPE TRANSFORMERS

We have partnered with **BAHRA ELECTRIC** Over the year's company has built a strong expertise in engineering, design, development and manufacture of high quality transformers catering to the vibrant sector of electric power distribution in GCC. Its products are designed, manufactured & tested to comply with national and international standards including IEC-60076 / IEC-60076-11 / IEC 61378 / IEC-62271 / ANSI C57 / BS-171/EU Regulations 548 / ENATS Etc

CLOSED CONTROL UNITS

We have partnered with **MONTAIR (part of G.I. Holding Group)** for Closed Control Units. They offer a range of specifically designed products to fulfill the various types of applications, based on total climate control, reliability and energy efficiency to optimize the investment made in the system.

The following are the various types offered:

- ◆ Close Control Units for Medium-Density Data Centers
- ◆ Logica System for High-Density Data Centers

Products

Lighting Products

The Lighting division has established a strong presence in Qatar, known for delivering state-of-the-art lighting solutions and products. We work closely with clients, architects, designers, and contractors to provide lighting solutions that align perfectly with project requirements. Our aim is to deliver the right level of illumination to enhance visual effects, creating an ambiance that complements the mood and setting. Our diverse range of lighting solutions has been

integrated into various large- and medium-scale projects, including offices, heritage buildings, public spaces, warehouses, sports facilities, healthcare centers, infrastructure, retail, and hospitality environments.

With a focus on innovative lighting technologies, including advanced LED systems, we offer seamless solutions that incorporate powerful digital controls and natural daylight to boost energy efficiency while delivering superior light quality.

MAJOR ACHIEVEMENT IN QATAR

Tamco - Indoor and Outdoor Switchgears - Malaysia

We have successfully executed projects worth USD 218 Million

Federal - Oil Type Transformers & Package Substation - Oman

We have successfully executed projects with Kahramaa and private clients worth USD 281 Million

Landis+GYR - Electricity Meters - Greece

We have successfully executed projects with Kahramaa and private clients worth USD 20 Million

Power Plug - Bus Duct System - Malaysia

Successfully executed more than 150 project and worth of USD 35 Million

Eaton - Central Battery System JSB UK & CEAG- GERMANY

Successfully executed more than 100 project and worth of USD 20 Million

Eaton - UPS System - Finland

Successfully executed more than 80-100 project and worth of USD 3.5 Million

Eaton - Fire Alarm System UK

Successfully executed more than 100 project and worth of USD 10 Million

Lighting

Successfully executed more than 500 prestigious projects worth of QAR 1.4 Billion with world renowned lighting brands in different segments.
